COMMERCIAL FERTILIZERS.

What to Buy

That Commercial Fertilizers are essential to the successful production of crops can no longer be questioned. This has been settled by actual experience of the most successful farmers North and South, as well as upon the highest scientific authority.

The question therefore for the considerate is the former is, what to buy, in the shape of manure.

The answer to this question is: What has stood the test? What guano stands before the armers of North Carolina as a practical success? We answer, the

Pine Island Ammoniated Phosphate.

That it is a success we have certificates from leading farmers in every section where it has been used—men who have used Commercial Manures for years and make money by it.

We don't dare say it does not pay to make manure at home. It does pay. And no one can be successful in farming unless he makes manure. When he has made all the manure possible the deficiency must be supplied by commercial Fertilizers, for no one who cultivates cotton for profit (and that is the only profitable crop that can be raised in our section) can make on his farm a sufficiency of manure for his crops.

We offer the Pine Island Guano to supply this deficiency, in the fullest confidence that it is the best and cheapest fertilizer sold in the State.

We have arrangements for supplying it in any quantity, in good strong sacks, so that it can be transported any distance without loss

The season for planting is now nearly at hand and we hope to receive all orders early so that they can be booked for immediate shipment from the Rail Road Warehouse thus saving the expense of drayage and handling.

Most Respectfully,
M. T. LEACH & CO.

We desire to establish agencies at all the principal Rail Road stations in the cotton section.

With good reliable agents satisfactory terms will be made.

THE COMING OF SPRING.—By far the most beautiful and softest day this season has yet seen, was yesterday, a day whose perfect sunshine and soft breezes made life outdoors a thing to be enjoyed. The charm of winter seemed to be broken, and sweet spring to have the time all for her own. The influences of this gentle weather are apparent, for already the crocus and the hyacinth are blooming in the open air, while the violets, which even the chill weather did not slay, are more odorous than ever. The loveliest season of the year is now close upon us, for March breezes do but give a zest to life in this favored Southern clime.

WAKE SUPERIOR COURT.—Court met at 10 o'clock yesterday, His Honor Judge Milis L. Eure presiding. The following business was transacted:

W. W. Montague vs. A. T. Mial. Judgment for plaintiff.

Henry Beckwith vs. Nathan Core. Continued by consent.

Helen Debnam vs. R. P. Howell. Order to take depositions of C. M. Farriss, de bene esse, on two days' notice.

W. M. Sorrell vs. W. H. Harward. Continued.

Charles E. Johnson vs. George M. Smedes et als. Order confirming sale.

Jas. M. Towles and wife vs. Jefferson Fisher. Order amending and confirming report. Final judgment entered.

Thomas Marcom vs. J. P. H. Adams.

LENT.—To-day is known in the church as Ash-Wednesday, so termed from a custom which still prevails in the Roman Catholic Church, of sprinkling the head or forehead with ashes. It begins the season of Lent and is the forty-sixth day before Easter, the six Sundays which intervene between it and that festival not being counted as part of Lent nor observed as fast days. The word comes from the Saxon, and implies the Spring season. The fast is a preparation for Easter and a time specially set apart for repentance over the sins of the past year; while the number of days devoted to it has reference to the Savior's 40 days fast in the wilderness, to the 40 days of the deluge, the forty days wandering of the Jews, the 40 days granted the people of Nineveh for repentance, or the time spent by Moses and Elias in fasting. According to St. Jerome, as well as most of the fathers of the 4th and 5th centuries, it was instituted by the apostles, though others hold that it was not established until the 2nd or 3rd century. It appears to have been made obligatory at least as early as A. D. 250 At first there was great diversity in the time and manner of observance. Its duration was soon fixed by the church at 36 days, to which 4 were subsequently added. In the Roman Catholic church the nature of the fast is prescribed by rule, while in the Greek church the rules are even more strict, and there are four lenten fasts during the year. The fourth Sunday of Lent is termed Mid-Lent Sunday, or Passion Sunday. The day before Ash-Wednesday is termed Shrove Tuesday, because the faithful used then to confess and be shriven, in preparation for the fast.

NORTHERN SETTLERS CONVENTION.—Pursuant to resolutions adopted at the late meeting of Northern settlers at Charlotte, the northern born residents of the State, among them numbers of ex-Union soldiers, will assemble in this city on Saturday in State Convention. The idea is to secure concert of action on the part of these gentlemen who have thus made this State their home, to make due arrangements to secure immigration here, by all means. The report has been circulated in portions of the North that men from that section who come here are ostracised, and even maltreated. These evil tales gain credence in many places, and deter hundreds of worthy settlers, who would be a gain to any county, to seek homes elsewhere than in the South. By these means they go to some Western State, and the fertile valleys and rich mines of North Carolina know them not. The late convention at Charlotte gave the lie plainly to all these reports, by showing that Northern men who come here as settlers and not as bummers, are met with heartiness. This is the truth, as is evidenced in this community, in which some of the most responsible positions are held by northern men, while others take a high stand socially and financially. The convention of Saturday will place these facts even more plainly before the eyes of the people of the North, for with a genuine love for the State of their adoption they wish to secure for her a fair share of that immigration which she so much needs but which now turns aside from her. The citizens here should appreciate in a high sense the ends, aims and merits of this convention, and encourage it in all possible ways, for it is a movement which is sure to produce the best results. The meeting will be held in Metropolitan Hall, and will be largely attended, as those who are delegates are enthusiastic on the subject. The Northern settlers of this city and county, as well as the old residents, should give them a hearty welcome. Committees should be appointed to arrange for the reception and entertainment of the visitors, for much depends on the proper conduct of such matters. There is but little time for action, and therefore those plans are suggested, so that all may be satisfactorily arranged by Saturday.

### Stock Law.

Concord Register.

The Legislature is hammering at the stock-law question. There seems to be some dread on the minds of our Legislators in regard to this important measure. We think the Representatives or Senators who take hold of that measure boldly, will be more certain to reap the reward of popular favor than those who move toward the measure like a dog going for a snapping turtle, very bold until very near it, then dodge as though the measure had political jaws, and dreaded less the thing would bite.

### Death of Col. W. S. Devane.

Star.

Our community was shocked yesterday morning by the sorrowful intelligence of the sudden death of Col. W. S. Devane, at his residence in this city, from a stroke of apoplexy. Up to Sunday evening about 7 o'clock he appeared in usual health, and had even attended the funeral of Dr. W. F. Freeman that afternoon. At the time of evening we have mentioned, he complained of feeling unwell, and while attempting to walk across the floor of his own sitting room he was noticed to stagger and would have fallen, had not one of his family observed his condition in time to catch him ere he fell. As he was born to his bed and a physician summoned who found him unconscious and and unable to swallow the necessary medecine. His condition continued with little change throughout the night until 10 o'clock yesterday forenoon, when he breathed his last.

In the loss of her useful, public men, our city has been severely afflicted of late. Scarcely a month passes, (and sometimes but a very few days) but that we are called upon to mourn the loss of one whose failing away is truly a public bereavement. Amid them all few true-hearted, courageous men have passed from us than him of whom we write.

### Some New Deviltry.

Aaltimore Gazette.

In order to make the third term boom still more the organ of the implacable at Washington makes the astounding statement that "the proposition to pension maimed confederate soldiers was seriously talked of by many republican leaders during President Johnson's administration and at that time was understood to have received the hearty approval of General Grant." Mr. Ben. Butler will evidently have to invent some new deviltry if he expects to get ahead of the third termers. After a while we shall probably hear that Grant was a full-blood d confederate brigadier—as Butler clearly was.

### Thrift and Economy.

Vicksburg (Miss.) Herald.

The people of the South need to be industrious in the full meaning of the word, and to learn thrift and economy as they are practiced by the northern people. Our able-bodied males must depend less on tobacco and whisky and more on the sweat of their brows, and our young women must encourage this by turning their lily-white hands to anything they can possibly do, and let up the least bit on fashion if it stands in the way.

## OUR LAW MAKERS.

### SENATE.

TUESDAY, Feb. 25, 1779.

The Senate met at 10 a. m. Senator Scales in the chair.

Sundry petitions were presented and referred.

Reports of committees were presented by Messrs. Nicholson, Graham, of Montgomery, Graham, of Lincoln, Eaves, Bryan, of Duplin, Merritt, Bryan, of Pender, Alexander, Dortch, Brower, Henderson, Ward, Taylor, White, Everett, Redwine, Shackelford and Snow.

Mr. Caldwell introduced a resolution providing for an investigation into the charge of a corrupt combination of Senators on the passage of the Western Railroad bill. Calendar.

THE PROTEST.

Mr. Williamson, by leave, presented the protest of himself and five other Senators, withdrawn yesterday for modification, against the passage of the bill to change the name of the Western Railroad Company, and to authorize its consolidation with the Mount Airy Railroad Company, &c.

The protest was again read.

Mr. Everitt admitted the right of protest, but objected to assertions as matter of fact which should be given as a matter of belief. He alluded to the statement in the protest that the bill incurs a debt of $100,000 in an effort to save $50,000. He was not willing that this statement should go forth as a matter of fact whilst the majority voting for the bill hold it to be not true.

Mr. Caldwell did not know how properly to characterize the protest and keep within the bounds of Senatorial propriety. He was surprised that Mr. Williamson should continue to persist in the statement that that the road was not worth more than $60,000, when that Senator ought to know that the road it now sold out would bring thrice that sum. Mr. C. hoped the Senate would insist upon the protest representing matters fairly.

Mr. Ormand moved that the protest be spread on the journal of the Senate.

Mr. Davidson moved the previous question. Mr. Ormand's motion then prevailed.

On motion of Mr. Alexander, under a supension of the rules, the bill to develop the agricultural and other material interest of the State was forwarded a stage.

ELECTION OF MAGISTRATES.

On motion of Mr. Davidson a message was sent to the House proposing to go into the election of magistrates to fill the vacancies occasioned by the expiration of the term of service of the two year class, one for each township in the township in the State. The House concurred and the election proceeded, occupying some two hours of the time of both branches.

CITY OF WILMINGTON.

Mr. Bryan, of Pender, asked for a suspension of the rules to put House bill in regard to the city of Wilmington on its passage. Agreed to.

The bill provides for the retention in office of the present municipal officers for two years, or until the regular election under the amendment chapter.

Mr. Dancy moved to make the bill the special order for 7:30 p. m.

Mr. Bryan, of Pender, moved the previous question, and the bill passed its second reading by a vote of 20 to 10.

The bill then passed the third time; ayes 21, noes 10.

Mr. Bryan, of Pender, moved the reconsideration of this vote, and to lay the resolution to reconsider on the table. Agreed to, and the bill was ordered to an enrollment.

At 2 o'clock the Senate took a recess till 7:30 p. m.

Amendments, or lists of names, were sent in in great numbers.

The speaker appointed Messrs. Lewis and Blaisdell tellers, and the House proceeded to ballot, each member, as his name was called, designating his choice.

At the conclusion of the ballot the Speaker announced that the House and Senate tellers would meet and compare votes and announce the result tomorrow at noon.

At 2 p m. the House adjourned.

EVENING SESSION.

The report of the joint committee on the calendar, giving the titles of important bills, as given in Senate report of Saturday, was read.

Bill to incorporate the Chapel Hill and Iron Mountain Railway Company, passed its readings.

Bill to amend the law allowing Milton township, Caswell county, to subscribe $15,000 to stock in the Milton & Sutherlin N. C. R. R., passed its final reading.

A Stalwart View.

Washington Republican.

Texas has a $300,000 deficit this year, which is natural, because the State "enjoys" a democratic administration. It proposed to make it up by selling off the school lands, which is also very natural, because the democracy hate the public school system.

### Digest of Supreme Court, January Term 1879.

Reported for the NEWS by Walter Clark, Esq. Attorney at Law.

BY SMITH, C. J.

30. *Simonton vs. Simonton*, from Iredell.

Where counsel cannot agree upon a case and the judge goes out of office before he can "settle" the case, if the omission is the fault of the appellant his appeal will be dismissed. But if it is not, a new trial must be accorded.

BY SMITH, C. J.

31. *Dean vs. Ragland*, from Forsythe.

Where there is evidence of a compromise in writing between a ward after her arrival at full age and the sureties on the guardian bond it is error in the judge in a subsequent suit to charge that there was no evidence of an accounting and settlement. Where the defence set up in limine would, if sustained, be a bar to an account it must be passed upon and determined before a reference is ordered, because the account might be wholly unnecessary.

BY SMITH, C. J.:

32. *Collett vs. Henderson*, from Burke.

In a judgment upon proceedings for partition by tenants in common it is equitable and proper to decree that if any of them have caused valuable improvements to be put on portions of the land to assess their value as if no such improvements had been made and to allot the parts improved to the parties who have made such improvements. When no statement of the case accompanies the transcript and no errors are assigned by the appellant nor are apparent in the record, the judgment must be affirmed.

BY SMITH, C. J.:

33. *Newhart vs. Peters*, from Mecklenburg.

It is error to sustain a demurrer filed by a party who comes in and makes himself a party defendant without showing that he has any interest in the subject matter, or can be affected by the result, of the action. The validity of a bond and mortgage executed by a feme covert can only be controverted by her and such others as may have derived from her some claim or right to the property conveyed. A husband and wife can by deed of mortgage duly executed, proved and registered make a valid conveyance of her lands and subject them to the payment of debts and other liabilities. A feme covert has the same right, under the same regulations, to make a mortgage that she has to execute an absolute conveyance.

BY SMITH, C. J.

34. *Flynt vs Bodenhamer*, from Forsythe.

The court must decide whether a witness has had the necessary experience to enable him to testify as an expert. The value of the opinion when admitted must be determined by the jury. It is not error for a judge to charge that the law attaches peculiar weight to such evidence, when such charge manifestly refers to the opinion itself as evidence in the cause and not to the credibility of the witness who gives the opinion.

BY ASHE, J.:

35. *State vs. Barnwell*, from Buncombe.

Where upon a sudden quarrel one kills another, even when there was previous malice the law will not refer the motive to the previous malice, but to the provocation and will extenuate the offence to manslaughter. It was error to refuse to charge, when asked so to do, that unless the knife used by the prisoner to do the killing had been prepared for the purpose its use was not necessarily evidence of malice. Where there had been threats but a subsequent reconciliation it was error to charge that if there had been previous malice it was a clear case of murder.

BY ASHE, J.

36. *Hillyburton vs. Carson* from McDowell.

The Judge of a Superior Court has the power to vacate a judgment rendered by him during the same term.

BY DILLARD, J.

37. *State vs. Boone* from Ashe.

The declaration of another party that the prisoner, in a trial for murder, that he himself shot the deceased is inadmissible being hearsay. It is not error for the judge to stand aside a juror after he had been tendered and accepted by the prisoner, but before he was sworn, on learning that the juror was related to the prisoner. An instruction of the Court to the sheriff to summon on the special venire only free-holders who had paid their taxes for the last year was not improper. If it were, the defendant waived his objection by not making it when the order was given.

BY DILLARD, J.

38. *State vs Pettie*, from Buncombe.

Where a man whipped his wife without provocation, excessively and cruelly and inflicted most likely a permanent injury upon her an imprisonment for two years in the county jail is not an excessive punishment.

BY DILLARD, J.

39. *First National Bank of Charlotte vs. Sample* from Mecklenburg.

Service of summons by leaving a copy with the wife of the defendant is not a legal service. The delivery of the copy to him by the wife is not sufficient, even if proved, and no verbal admission of service or assent to the service as made will be sufficient unless in writing C. C. P. sec. 89, subsec 3. A refusal of a motion to vacate a judgment, obtained on such service, which is based on the ground that another judge is holding the courts of the district and has jurisdiction does not make the matter res adjudicata or debar a renewal of the motion before the latter.

BY DILLARD, J.

40. *Smith vs. Hahn*, from Craven.

On a motion to set aside a judgment for fraud, mistake or excusable neglect a finding of fact by the judge that the defendants did not fail to employ counsel in their action in consequence of any fraud practiced on them by the plaintiffs is defective if it does not ascertain and separately set out the facts which as a matter of law amount to fraud on the part of the plaintiff or do not. Where the Judge below does not sufficiently find the facts this court cannot decide upon his conclusions of law and the appellant must have leave to move the court below to find the facts sufficiently and render judgment there on anew.

### Work for Bayard.

Atlanta Constitution.

If Senator Bayard will kindly lend his aid in preventing the consummation of the republican plot to seize the organization of the house by means of packed juries and perjured witnesses, we will take pleasure in reading and digesting his eloquent theories as to the right of self-government and other interesting matters. But until the democrats in congress have forced the repeal of the test oath and other partisan laws, we will have no time to devote to theories, however eloquent they may be. When the electoral commission was organized, the democratic theory was that the members thereof ought to have decided as honest men and patriots. This was Mr. Bayard's theory and it was ours; but we all know the result. We believe the time has arrived when Mr. Bayard can do his country some service by descending from the clouds and putting in a little practical work.

### On Emigration.

Correspondence of the News.

SENATE CHAMBER, Feb. 24th.

Whereas the Legislators of North Carolina have expended over a hundred thousand dollars geologizing and advertising the mines, minerals, water powers and agricultural and climatic advantages of North Carolina, and as Moses sent spies to spy out the land of Canaan, so did Lincoln send out fifty thousand spies to spy out and test the agricultural products of North Carolina and as these fifty thousand spies are still living and scattered throughout the North American continent, to testify to all whom it may concern, of the great advantages offered by North Carolina to emigrants. Therefore, resolved, by the General Assembly of North Carolina, that we will withdraw old Rip, from the market as we are unable to make a corner on his rich mines, minerals, water powers and elysian climate, in this unappreciative world, and as a dense population tends neither to the good of society nor to individual wealth or prosperity. Therefore, resolved, that the natural increase of our population will occupy and fill up our territory as fast as it is desirable, that it should be cleared and tilled, and that we will spend no more of the tax money of a poor people advertising for outside help to ameliorate our hard condition, but by and with the consent of the rest of mankind, we will increase and multiply and enjoy our own land, mines, water powers, root hog or die.

"This world is not one garden spot,"
One pleasure ground for man,
Few are the spots that intervene,
Such as the Plains of Sand.

Rally to the battle of life, ye sons of toil,
Charge for bread on your native soil,
By deeds of patience, efforts sublime
Leave some footprints on the sands of time.
Root hog or die.

ZEBIDEE.

### Should Use A Fan.

Baltimore Gazette.

California will not secede from the union hastily. If she should cut herself off from the benignant United States and break up her trade entirely with China she might be able to run up wages for a season, but we can hardly believe that the prosperity would be permanent. The Pacific mail steamers now bring $50,000,000 of business to San Francisco annually from China. Besides all this the federal government has established the principle that secession is naughtiness, whether inspired by the negro or the Chinaman, and it has pledged itself to whip and subjugate any state cutting a dido of that character. The average Californian should keep cool.

Mr. Halstead says that Grant is not corrupt himself, but that he is corruption blind. This means, we presume, that he is one of those virtuous people who scorn a bribe, but who invariably add a postscrip: "You can bribe my friends and I'll look out for welfare; but don't try to bribe me." We judge from Halstead's estimate that Grant is quite a worthy citizen.

The premature republican editor is engaged just now in the melancholy ask of giggling over what he conceives to be the divisions among the democrats. Of one thing they may be assured, however. Whatever disagreements there may be among democrats there is no division of sentiment so far as opposition to the party of fraud is concerned. Upon that issue the democracy is as solid as the solid south.

### A New Departure.

New York World.

Of all the queer things which have been done or left undone by American legislatures of late years, perhaps the queerest is the decision of an Illinois legislative committee to let the Pullman car company manage its own business because the "present receipts yield but 8 per cent. on the capital invested!" The decision was a sensible one; but are we to regard the principle of the decision as a precedent and a new departure in legislation?

# DAILY NEWS.

MONDAY, FEBRUARY 25, 1879.

HUSSEY & JORDAN, Prop's.

JOHN B. HUSSEY, - Editor.

### An Investigation Called For.

Something rather stronger than rumor has been prevalent that the passage of the appropriation to the Coalfields Railroad was procured by promising Republican Senators from the East the appointment of negro magistrates for their counties if they would vote for the bill.

The last Goldsboro Messenger contained some allusion to the matter and when a motion was made in the Committee on Magistrates to reopen the list Mr. Carroll of Sampson, promptly denounced the motion audstated "that the fraud was unparallelled in history, save in the theft of the Presidency by Rutherford B. Hayes."

On yesterday Senator Caldwell introduced a resolution to investigate the matter.

A committee should be appointed that will investigate and report the facts.

A committee to whitewash is not calculated to soothe the public mind.

An honest, intelligent, decided committee composed of the best men in the Senate should be appointed to investigate this matter and if these facts are fully sustained report resolutions expelling the senator or senators who have procured the passage of the act of appropriation, by such means.

The people demand clean hands in their legislators.

If their hard earnings are to be taken from them and their little ones by the tax-collector for the use of railroad corporations they will submit to the law.

But woe to the party and woe to legislators if the passage of that law is procured of negro senators by promising them that negro magistrates shall be appointed to rule over white men in the counties most heavily taxed.

Let there be an investigation.

### The Tobacco Bill.

The National Tobacoo Association have addressed Congress in regard to this as to when the bill shall take effect. After giving an expression by telegraph from one or more leading houses and manufacturers in each of the principal cities, a majority of which are in favor of the earliest possible time. In conclusion the address reads:

"Anything almost preferred by the business men to suspense, delay or uncertainty; their plea is, "settle the question and have done with it. Stocks never were lighter; a change of tax now will hurt less than at any other time." As dealers they are practically a unit, and this without consul ation or concert of action. As an association we plead with you for March 4 in behalf of thousands of suffering work people who during the past fifteen months have already borne want and privation beyond our ability to describe. The losses we have sustained during that period can be computed by dollars and cents, the valuable business connections serverd and destroyed may eventually regained by energy and perseverance; but seventy additional days of enforced idleness and starvation to operatives and their children, either you or we cannot repair, unless you decide upon March 4 or the earliest possible date for the law to opperate.

Until the new rate tax takes effect no dealer will buy to relieve the generally overloaded factories of tobacco made up during this agitation. No manufacturer will buy leaf until his vision of the future is clear, neither can the planter obtain a fair and honest price for his tobacco until a demand springs up; hence the only parties profiting by the delay are the agents of foreign "regies," who, taking advantage of the grower' necessities, have been for a long time almost the only buyers of raw leaf, and the few speculators who, believing the bil would not pass, saw fit to but at less than market rates, now ask you to endorse their folly by extending the time to May 1.

We cannot close without beseeching you, gentlemen, to heed our earnest appeal—we have stated to you the truth, and nothing but the truth, as we understand it. Make the act take effect on March 4, and the wheels of our industry will again be in motion, prosperity restored, taxes flow into the Treasury and work people fed and contented. Deter the time until May 1 and eighty millions of dollars of business will be postponed, delayed, frittered away and partially lost; many a poor manufacturer ruined while thousands of God's poor may be driven to crime to hush the cry for bread.

In behalf of the National Tobacco Association of the United States.

### Relief of Mrs. Bayard Taylor.

The Senate Committee on Foreign Relations have decided to authorize its Chairman, Senator Hamlin, to offer an amendment to the legislative, executive and judicial appropriation bill appropriating $7,000 to the widow of the late Bayard Taylor United States Minister to Berlin. This sum, it is understood, will not be sufficient to more than pay the obligations for house rent, etc., incurred in Berlin by Mr. Taylor.

THERE is much uneasiness in San Francisco on account of the efforts of the Eastern press and clergy to induce the President to veto the anti-Chinese bill. The papers there declare that a veto will be a public calamity to the Pacific coast. The Connecticut House of Representatives have adopted a resolution that the anti-Chinese bill is a flagrant violation of a sacred and honorable treaty, and wholly inconsistent with the principles and traditions of our own republic.

### The Northern Settlers Convention.

It will be noticed in another column that Northern born residents of the South who have settled in the State since the war, and ex-members of the Federal army, will assemble as a State Convention in this city on Saturday, March 1st, at noon, in Metropolitan Hall.

This Convention meets in pursuance to the call of the Charlotte Convention of the 15th of January last. Its purpose is to call attention to the products of the soil, climate, social condition and other topics of kindred nature, and to select ten delegates to the general Convention of all the Southern States to be held at Charlotte, July 4th, 1879, to which day the former Convention adjourned. The proceedings of that body are now known far and wide through the Union, and are accomplishing already a good result, and the Legislature yesterday passed a law ordering the printing and distribution of 20,000 copies of the proceedings of that Convention in States other than North Carolina. These Northern men have done for the South good work in placing before the world the true condition of the South as they find it from their own experiences. The coming State Convention will do a good work for the State in localizing more especial facts. The State and the city should look alive to its interests and by every means encourage the introduction of the brains, energy and capital, which these meetings are calculated to operate upon.

The Northern residents in our county should do honor to their brethren who come from all parts of the State to aid in its upbuilding.

The city and its citizens should let it be understood that Raleigh's hospitality is not boastful.

WE have received from the Editor of the Goldsboro Messenger a guide book of the State. It is a neat little volume bound in cloth cover with gold title, containing a revised map of North Carolina, also a list of counties, date of their formation, after whom named, county seats, area and population, the time of holding courts, important chronological events of the State, table of distances to leading places, population of leading towns in the State, facts concerning the State worth remembering, internal revenue law, postage rates, interest tables, standard weight of grain, land measure, table showing the depreciation of confederate currency from 1861 to 1866 a neat calendar for 1879, etc., and much other useful information, making it a most desirable pocket companion, worth itself the subscription price of the paper.

IT is claimed that Grant will solidify the North. The claim is worth looking at in the light of history. When Grant became President, the States of Massachusetts, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois and Michigan had ninety-three Republican and twenty-seven Democratic members in the House. Grant began to solidify, and pursued the work with such vigor that during the last two years of his administration there were fifty-eight Republican and eighty-one Democratic members, a Democratic gain of eighty-nine in only eight Northern states.

IF Germany had a form of government as liberal as that of England, Bismarck would have been compelled to resign after his crushing defeat of last week, and his great opponent, Herr Lasker, would have succeeded to the premiership. As it is, Bismarck will continue to fight public opinion and the spirit of progress, but his ultimate and crushing defeat cannot be doubted.

THE proposition for an international exhibition in New York in 1889 seems to be taking shape. At a meeting of the executive committee, held in that city Monday evening, a resolution was adopted providing for a sub-committee to take the matter of a site into consideration, to make inquiries and report, with such recommendations as they may think proper. This committee is composed of Jackson Schultz, Orestes S. Cleveland, R. M. Hoe, S. B. Vance and Chas. L. Tiffany—all men of intelligence and enterprise.

THE Philadelphia papers say that there is a movement on foot to bring about a new coal combination, providing for a cessation of mining by all the companies whenever the price of coal goes below a certain fixed minimum. It is doubtless to this sort of combinations, unjust alike the public and the laborers in the mines, that most of the riots in the coal regions are to be attributed.

PROF. ELLIOTT, of the census Bureau, estimates the population of the United States on July 1st, 1879, at 49,375,000. He bases his calculation upon the principle "constant second differences," which give an increase of about thirty-two per cent. for the decade ending with 1880. In 1880 the population will be more than 50,000,000

THERE is a prospect that the army appropriation bill may fail unless one house or the other shall recede from its position in reference to the army reorganization. The Senate committee has struck off at one blow the entire feature of army reorganization adopted by the House, and will report in favor of an entirely different plan. Its action will be sanctioned either wholly or partly by the Senate, and it may be that a conference committe will not be able to reconcile the differences between the two houses.

BEN. Butler will open his campaign for Governor of Massachusetts as soon as Congress adjourns by giving the Democratic members of the Legislature a dinner.

IN CONFORMITY to the proceedin and call of the convention of Northern settlers held at Charlotte January 15th, the State Convention will be held in this city at noon on Saturday next, March 1st. We gather from the country exchanges and other sources that the attendance will be very fair.

The State ought to feel a just pride in its new comers who in so manly a way come to the front and show that the old North State is a good place to live in.

Our citizens ought to see to it that the delegates have all proper courtesies and recognition. The acts of the convention may prove to be a long stride to wealth and progress.

A REAL telegraph has been invented by an English mechanical engineer. A writer in London moves his pen, and simultaneously at Brighton another pen is moved in precisely similar curves and motions. The writer writes in London, the ink marks in Brighton. The pen at the receiving end has all the appearance of being guidided by a spirit hand. The apparatus is shortly be made public before the Society of Telegraph Engineers.

On the internal revenue bill, containing the tobacco tax reduction, every Democratic and eleven Republican Senators voted in the affirmative and all of the remainining Republican Senators in the negative. Probably no other tax reduction could reach so large a proportion of the people as this one. It takes from $9,000,000 to $13,000,000 per year from the burden of taxation upon the people's shoulders. And the Treasury, with an idle coin reserve of $140,000,000, will not be materially weakened by this loss of revenue.

THE advantages of having vacant missions to fill are so obvious to Mr. Hayes that no one can be surprised at his reluctance to dispose of them The hope of winning these prizes secures him respectful treatmeat from numerous prominent Republican leaders, who will resume their old attitude of contempt if they become satisfied that their will not follow their fawnings.

THE Arkansas Senate has passed the House bill to dispossess counties of all powers as bodies politics and corporate and of the capability of suing and being sued, and repealing all laws regluating proceedings in suits by and against counties.

THE Illinois Senate has passed a bill providing that insurance companies shall not advertise as assets anything which is not available to pay debts. The object is to prohibit the publication of deceptive statements as to the means for obtaining patronage.

HAYTI has a penal code in which there is a provision that any liberous matter admitted into a newspaper may subject the editor to five years' penal servitude and flogging with the cat-o-nine tails.

### Work in Congress.

N. Y. Star.

Notwithstanding the wish of a majority of the Democratic members of Congress to avoid an extra or special session of the new Congress, the work is so far behind, and there appears to be such a disposition on the part of the Republican Senate to antagonize the action of the House, that it is not unlikely the Forty-sixth Congress will have to be called together before the usual time. One of our Republican contemporaries of this city recommends its partisans in the Senate to insist upon their views, particularly in resisting any repeal of the arbitrary and obnoxious election laws, or war laws, and it sneeringly says the Democrats will, as they usually do after making a fuss, back down. Should any of the Appropriation bills fail through the obstinacy of the Republican majority in the Senate, Mr. Hayes would, no doubt, get along with the Administration as long as possible without calling a session of Congress. This, of course, would depend much upon which of the Appropriation bills might fail to pass. Neither he nor any of the leading men of his party want Congress to meet before the fall political campaign begins. A Democratic Congress in both branches might make a popular strike that would tell effectively upon the Congressional election in California and upon the State elections in the fall. However, we shall know in a few days whether there is to be an extra session, and, from the character of unfinished business, if it would be necessary to call it before the fall.

### Lawyers vs. Homesteaders.

Correspondence of the News.

Your paper does not generally fear to publish the truth. Are you afraid to give the lawyers a showing? If so don't publish this letter.

In view of the fact that there is a very positive disposition on the part of the people and a portion of the press of North Carolina to decide, to depreciate and to denounce the members of the legal profession of the State, it seems to your correspondent that this is not an inappropriate time to call upon them to organize for their own vindication and protection.

With no disposition to imitate that class-feeling of prejudice which the farmers and the unlearned generally have sought to array against a profession that has been always distinguished for zeal, patriotism and intelligence in every department of life, we may certainly be permitted to combine for the promotion of our own interests and the advancement of our common welfares.

The Legislature now in session, after having secured their elevation to office through the eloquence and the campaign planning of the lawyers of North Carolina, have been constantly seeking opportunity to make manifest their unreasonable hatred of the most self-sacrificing and intelligent class of the people; and have vindictive dullness done all that could imagine to those contemptand obloquy upon those who have made it possible that a Democratic Legislature could exist in this State. They have been foolishly entrapped into this course of stupidity though the loud mouthed assertions of county court-house rings, (composed of sheriffs wiser than Solon, clerks more learned than Coke, and others who imagine that they only know the law and they only have the honesty to declare it) who have assented that the people have tired of the dominion of the legal profession.

If the lawyers of the state have the nerve to wait patiently and to stand together they have the game in their own hands: Let them enter together into solemn obligation to decline candacy, or election, to position in the Legislature for the next ten years. Let them agree positively that they will declare to dratt any bills for consideration of such Legislatures as may be hereafter elected, matter what the pecuniary inducement offered. And then declare to assist the homesteader class of politicians (most of those who are now abusing lawyers, owe the troops over their heads to the legal acumen of Legislators were honor to the State, but who were misguided enough to warm into life the serpents whom they took into their compassionate bosoms only to find when they cherished them into renewed existence their fangs were stuck into their own hearts,) to re-election, whenever they go before the people and wish the people to keep up the supremacy of "the wealth, the virtue and the intelligence of the State.

This will result in the reestablishment of that ignorance, which so long rogued in the Legislative chambers at Raleigh; this will result in cutting that ignorance off from all assistance of intelligence, by withholding from it all the legal advice; this will put the Criminal and Civil Code of the State into such disorder, into such confusion, that, (if the legal profession deserve the mercenary character which has been sought to be imposed on it by the clamor of the homestead class) they will be able to make more money than they have ever before been able to make. Every lawyer will be able to have all the practice he wants and can attend to, at fancy prices.

At the expiration of ten years, the profession will be vindicated, and the cry will ascend from all quarters—"Down with stupidity! Give us the good old days of the Lawyers!"

Yours Truly,
YOUNG FELLOW.

### Traveling on Wheels.

Baltimore Sun.

There has lately been at the permanent exhibition at Philadelphia a secondary exhibition in the shape of a newspaper carrier who travels about the building at the rate of twelve miles an hour. Now a mile in five minutes would be remarkably good time for any but fast horses, but this man is said to make his twelve miles an hour easily. The secret of "his shoes of swiftness," as the old story books would say, is that affixed to his feet is a pedometer. The machine so-called is described as consisting "of four tough, light wooden wheels, supplied with an outer rim of tough india rubber. These wheels are secured to a frame the shape of the foot, which is strapped to the pedal extremities in the usual manner. Unlike roller skates, the wheels of these little vehicles are not under, but are placed on each side of the foot, thus giving the wearer a good standing as well as a solid footing. The rear wheels are three inches in diameter, while those in front are but two and a half inches. This gives the foot a slight incline, and when in motion has much to do in impelling the pedestrian forward." No more effort, is said, is required in the use of the machine than in ordinary walking. The weight of it is scarcely more than sixteen ounces. When the wearer of a pedomotor takes his regular stride "he is amazed," we are told, "to find himself skimming over the ground so rapidly and so easily: The philosophy of the thing is thus explained:

"A man whose stride is thirty two inches will traverse forty-eight inches, or one-half further with the pedomotor. This is because the body is in motion. For instance, the traveler's arms, and while he raises one foot to step he continues rapidly onward until the foot is set down and the other raised to make another step. This gives him more momentum, and away he goes over two miles in the same time it would take him to accomplish a mile with the feet. No effort of the body is required for their use, as in skates. The traveler simply plants one foot before the other and finds himself whizzed along at a lively rate."

The prediction is hazarded, moreover, that at an early day "everybody will be skimming through the streets at the rate of ten miles an hour." It would be a curious thing to see every man his own locomotive and all the world on wheels.

### Origin of the Polka.

N. Y. Sun.

"The Polka Bohemian," the master went on to say, "is just what its name implies. It consists of the old heel and toe polka, with glissade steps—two glissades and the turning of the three-step polka. Let me give you a little sketch of the polka, which is a dance less than fifty years old. In 1830 a Bohemian peasant girl, Anna Slezak, who lived in the village of Elbeteinitz, performed one summer afternoon at a merry making a dance of her own invention, and sang a suitable tune to it. The village schoolmaster, Joseph Neruda, who happened to be present, wrote down the melody, and the following week it was performed by the students and the village maidens of Elbeteinitz. In 1835 the dance found its way to Prague, and there it was first called "pola," from the Bohemian work pulka, which means a "half," on account of the numerous half, or short steps of which it is made up. Four years later the dance was taken to Vienna by a music band from Prague, under the leadership of Pergier, and in 1840 Real, a dancing master of Prague, danced it with great success in the Odeon, at Paris, after which it spread with rapidity all over Europe. It had not been very long in vogue on the other side when Dr. Thier, a musical amateur in Paris, sent the music and a description of the dance to Thaddeus W. Meighan of the Daily Aurora, a man and a paper well known at that time in New York, and Mr. Meighan brought it to me. I was then ballet master at the old National theatre in Chatham street, and I first danced the polka in this country with Mary Ann Gannon, in that theatre, on the 15th of May, 1844."

### De Murska's Diamonds.

In New York Thursday evening, Mlle. Ilma de Murska left her rooms with her husband to visit a place of entertainment, leaving the premises and her casket of jewels in charge of a young friend, Theodore Gloiser. Next day the lady missed about $2,500 worth of diamonds and precious stones from the casket, and Van Gloiser was arrested. When taken before a magistrate the young man was nervous, but emphatic in his protestations of innocence. He said he might have slept in the room in the evening when the jewels were stolen and allowed a thief to secure to secure them. He was discharged.

Girls are advised by a Chicago physician to always sleep on their backs if they wish to keep crow's feet from the corners of their eyes. "These blemishes," he says, are the result of sleeping on the sides. The pressure upon the temple and cheeks leaves wrinkles at the corners and underneath the eyes which disappear in a few hours, but finally become so fixed that neither hours nor ablutions will abate them.

## Vegetine

FOR
CHILLS, SHAKES,
FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Dear Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Druggists' Testimony.

Dear Sir,—We have been selling your remedy; the Vegetine for about three years, and take pleasure in recommending it to our customers and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes; yet, all the while, a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it consumption, or decline," but it is not, in most cases, the regular phthisis or consumption of the lungs, which is the peculiar malady in all climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL, but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is a pleasant tasting and delicious food, nutrient and tonic for the body nerves and brain.

### Unheard of Bargains!

AT THE INDEFATIGABLE ENDEAVORS TO PLEASE THE PUBLIC SO HERE GOES.

Ye muses nine, inspire my pen,
To sing of Fayetteville streeet, No 10,
Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses youhear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.
And not forget
C. C. Clawson,
No. 10 Fayetteville St.

# LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

# LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price For sale by all Druggists.

**Price 25 Cts. and $1.00**

# BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can. DR. ### 45 Years Before the Public.

THE GENUINE
## DR. C. McLANE'S
CELEBRATED
## LIVER PILLS
FOR THE CURE OF
Hepatitis, or Liver Complaint,
DYSPEPSIA AND SICK HEADACHE

### Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with flax, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

### AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

**BEWARE OF IMITATIONS.**

The genuine are never sugar coated. Every [illegible] as a red wax seal on the [illegible] impression DR. MCLANE'S [illegible] McLANE'S LIVER PILLS [illegible] signatures of C. MCLANE and [illegible] Pa., on the wrappers.

IN SOLID GOLD MOUNTINGS.
ONE DOLLAR — THE WONDERFUL LEFEVRE DIAMONDS TRADE MARK PATD — ONE DOLLAR

Lefevre Ring, $1. Set of Studs, $1. The Shah Stud, $1. Lefevre Ear Drops, $1.

THE ONLY PERFECT FAC-SIMILE OF THE REAL DIAMOND IN THE WORLD.
Pronounced by the Academy of France that *M. Lefevre has really obtained artificially the true diamond.* The basis of these gems are pure crystals found in the Sierra Nevadas, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic process,
BY WHICH THEIR SURFACES ARE COVERED WITH A COATING OF PURE DIAMONDS,
Imparting to them all the BRILLIANCY, HARDNESS, and refractive qualities of the natural diamond, and making them as desirable for **Wear, Brilliancy, and Beauty,** as the veritable gems themselves. The Ring, Studs, and Ear Drops, as displayed in this announcement, are accurate engravings of SOLID GOLD MOUNTINGS, CONTAINING THE WONDERFUL LEFEVRE DIAMOND, warranted by certificate U. S. Mint assay.
**ON RECEIPT OF ONE DOLLAR** we will send free, by REGISTERED MAIL, to any address in America, either article as above represented. Or, "Book on Diamonds," with illustrations of artistic Diamond Jewelry in solid (14 K.) gold, mailed free.

I have seen many imitations of diamonds, but never saw that could equal the Lefevre Brilliant.—M. ELLROY, Stamford, Conn.
I am in receipt of a pair of the Wonderful Lefevre Ear Drops, for one dollar; to say that I am pleased with them hardly fills the bill, they are simply elegant.—ANDREW MORRIS, Hornellsville, N. Y.
The Wonderful Lefevre Diamond Ring, for one dollar, came to hand this morning. It is really elegant, giving entire satisfaction, and eliciting wonder and admiration from all who see it.—W. H. REEDY, Martinsburg, W. Va.
The Lefevre Diamonds, mounted in solid gold, are truly marvelous.—R. F. AVERY & SONS, Home and Farm, Louisville, Ky.
The eminently successful experiments of M. Lefevre silences all doubt of the artificial reproduction of the true diamond.—M. DU FRENOY, the great French Scientist.
The Lefevre Diamond most effectually disturbs the slumbers of the possessors of costly gems.—Journal of Science.

☞ We guarantee the Wonderful Lefevre Diamonds for **One Dollar** to be mounted in **Solid Gold,** and will cheerfully refund the money if found unsatisfactory. Address all orders to the

### Congress.

WASHINGTON, Feb. 25.—SENATE.—The pending execution of the order to compel the attendance of Senators for a quorum was disclosed by a vote on amendments and the Senators proceeded with the consideration of the bill to prevent the introduction of contagecue or infectious diseases into the U. S., and to establish a bureau of public health. The bill was read the third time and passed. The Senator then took up the deficiency appropriation bill and at 1:35 this morning adjourned to meet at 1 this afternoon.

The Senate today, by a vote of yeas 25, nays 36, refused to take up the resolution declaring David T. Corbin entitled to a seat as Senator from South Carolina, in place of M. C. Butler, present incumbent. The Deficiency Appropriation bill was then taken under consideration.

The Vice President laid before the Senate, by request, a telegram from the California Constitutional Convention, transmitting resolutions of that body, thanking Congress for the triumphant passage of the bill restricting immigration of Chinese to the U. S. and declaring that the Senators and members who supported the bill will receive the lasting gratitude of the people of California.

HOUSE.—A motion was made by Murray, of Ohio, to suspend the rules and pass the bill applying $20,000,000 of the proceeds of sale of the certificates of deposit authorized to be issued in aid of the refunding of the public debt to payments of the arrears of pensions, was defeated.

The House is now in committee on the legislative appropriation bill.

### An Attempt to Break Jail.

CINCINNATI, Feb. 25.—A dispatch says that Jackson Little and others, convicted prisoners of Breathitt county, Kentucky, made a desperate attempt to escape from the jail on the night before their departure for the penitentiary. They had cut through the floor in their cell to the room below, from which they could easily have effected their escape. They had their plan worked to suit themselves. They had arranged with their friends outside to engage in a sham fight on the opposite side of the jail when they were to make their escape. But the prisoners were discovered in the lower room and Judge Jackson ordered them put in irons.

### Depression Increased.

PRESTON, ENGLAND, Feb. 25.—The depression in the cotton trade has increased. Healy & Co., have given notice that they must stop their six hundred and eighty looms within a fortnight unless the trade improves. This involves the discharge from 2 to 300 hands.

### Contested Election.

MINNEAPOLIS, Feb. 25.—Taking the testimony in the contested election case, Dannally against Washburn, in the Third Minnesota District, closed last evening. The investigation extended through to-day and it is generally admitted to have shown the election to have been an unusually fair one. None of the charges have been sustained.

### Humble Life.

Tell me not that he's a poor man,
That his dress is course and base;
Tell me not his daily pittance
Is a workman's scanty fare.
Tell me not his birth is humble,
That his parentage is low;
Is he honest in his action?
That is all I want to know.

Is his word to be relied on?
Has his character no blame?
Then I care not if he's low born—
Then I care not whence his name.
Would he from an unjust action
Turn away with scornful eye?
Wou'd he then defraudan other;
Sooner on the scaffold die?

Would he spend his hard gained earnings
On a brother in distress?
Would he succor the afflicted,
And the weak one's wrongs redress?
Then he is a man deserving
Of my love and my esteem,
And I care not what his birthplace
In the eyes of man may seem.

Let it be a low thatched hovel—
Let it be a clay built cot—
Let it be the parish work-house—
In my eyes it matters not,
And if others will disown him,
As inferior to their cast,
Let them do it—I'll befriend him
As a brother to the last.

### To the Readers of this Paper.

Most of you are familiar with our "Bible Propositions" which have been published in this paper for over two months. We are glad to know, that several hundred of you have already availed yourselves of its benefits, and realized, to some extent, the wonderful virtues of the "Seven Springs Mass." Being induced to try it on account of the fairness of the proposition. We fully expected some few would demand the "Prize." Thus far not one has put in a claim. On the contrary, we have been the recipients of "Bibles," and other tokens of appreciation expressive of gratitude and acknowledgments for having called their attention to the remedy.

Our object for making that offer, was not merely to relieve headaches, for that which many regard as a case of headache, is in reality only a symptom of more serious and complicated diseases, it was therefore, more to reach these complaints, (the names of which we dislike to publish in news papers.) Knowing if the Mass was properly used for headache, the patient would discover its great value for other diseases, and we are glad to say, the plan has succeeded well, as evidenced from hundreds of correspondents, and the rapidly increasing demand for the Mass—and is being sold by all Druggists.

**Rescued, Restored, Revived.**

It is marvellous how the rounded outlines of the form are restored, the pale and sallow cheek vivified with the ruddy hue of health; the muscular fibre braced and strengthened, the nervous system and the brain toned and invigorated, by the steady use of Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda. It is by far the most elegant and effective preparation in the whole catalogue of medicines, and in the disorders indicated by scrofula, consumption chronic coughs, and the various forms of debility, it is a wonderful remedy. It is also deprived of all its disagreeable properties, and as sweet and palatable as cream.
